

Exemplification Essay on Why Education is Important

Education is very important for acquiring skills and knowledge that you will need for your future. Our education begins at home. Thereafter as we grow we go to schools, colleges and other educational institutes.

Education brings positive changes in human life. It enhances the knowledge, skill, and intelligence of a person and enables him to lead a successful life.

Children or kids start going to school to get the primary or elementary education. It is considered a human right for every child to get the opportunity for education. School education lays the foundation stone for the child's future.

Their rights to access education should not be compromised at any cost. Completing education at schools, a student may consider joining a college, or a professional institute for higher studies. He can acquire a bachelors or a master's degree, or he can join a professional institute to acquire expertise in specific discipline.

Education makes us humble. Education creates awareness and expands our vision. We become more aware about our-self, about the society, about everything that surrounds and affect our life. It helps us develop a disciplined life. And, discipline is essential for everything that a person wants to achieve in life.

Education enables us to earn our livelihood. Education empowers us to get a good job. We need money to make our living. With the advancement of science and technology, our needs have increased. Besides the basic needs of life such as food, shelter and clothing, we also need other comforts such as mobile phones, air-conditioners, car, etc. A fulfilling career ensures a satisfied life.

It is a known fact that an educated person gets better earning opportunities. After completing education, we can consider starting your own business. We can also become a consultant in the area of our expertise.

The study of computer science, software, and information technology will empower us to make a choice in the field of fast growing IT and internet industry. We can help illiterate adults to learn the basic skills of reading, writing and arithmetic.

Education is of utmost importance for eradicating the unemployment problem of our country. It is also essential to improve the trade and commerce, and to bring prosperity to our country.

However, apart from an improved system of general education, there is a great need for the growth of vocational education.

In conclusion, student must be familiar with the history, geography, religion, culture and tradition, through general education. Therefore, general education should aim at educating all students up to the secondary standard. Thereafter, depending upon the

aptitude of the student, he should either opt for advanced academic education or join a vocational training institute for skill-based training.
