

Personal statement

“Strong academic achiever with an excellent track record in numeracy and literacy studies, keen to pursue a career within finance and accounting with a leading employer”

With extremely high exam results in mathematics and English across both GCSEs and A levels, I have a good command of both calculation and the English language. I am now looking to apply my skills and knowledge in a finance or accountancy based role where I can grow a long-term career and support a range of colleagues and clients. Although I have not yet gained any paid work experience, I received an excellent feedback report from my secondary school work experience due to my hard work, diligence, customer facing skills, and ability to learn and apply new processes in the workplace. Outside of my studies, I also take part in a number of wide ranging voluntary roles and sporting pursuits which further build my abilities to work within teams and achieve common goals.
