

## **Plastic, Paper, or Cloth?**

We have a big decision to make. We can use cloth, paper, or plastic bags. I choose cloth because paper uses trees, and plastic uses petroleum; so, we should use cloth.

Cloth bags are easy to take with you and use again and again. We need to keep our earth clean, so let's use cloth. Remember, recycle and reuse.

## **The Best Pet**

Are you looking for a new pet? I'd recommend a cat. For one thing, they aren't that expensive. You could find one on your porch and adopt it. Cats usually bathe themselves.

Cats will sleep with you and can help you calm down when you're upset or mad. Cats also don't need training and you can leave cats home for the day. Cats don't need much exercise.

So, if you are looking for a pet, maybe you can find some cats, and you might find yourself a great pet!
